"My child and I have been made to feel extremely welcome by the nursery." Holly H

"This is a newly opened well appointed nursery with excellent staff." Fearg O

"We are thoroughly impressed with every aspect of the centre." Daniel G

WELCOME TO KIDO RIVER PLACE

Bring your child to a place that will inspire them.
There's plenty to discover at our innovative preschool

Our goal is to create inspiring and beautiful schools that your children will love

A huge part of our teaching philosophy has always been the beauty of the school. A pleasant environment can make a massive difference to a child's education, which is why River Place is such a perfect location for our Austin preschool.

The center can be found in a peaceful neighborhood, framed by steep hills and Lake Austin, with River Place Elementary School just a five-minute walk away.

It is our largest school yet, featuring

15,000 sq. ft. of space for kids to explore and five separate outdoor play zones, each catering to a specific age group. Inside, we have two huge indoor play areas, specifically designed to stimulate your child's all-round physical development.

Our Reggio Emilia and Montessori-inspired classrooms are airy, bright and calming, and we regularly take our children out on day trips to local attractions.

Your child will enjoy

plenty of interesting experiences such as story time, messy craft sessions and heuristic

"Our preschool features 15,000 sq. ft. of space and five separate outdoor areas."

play opportunities.

To ensure your children get the attention they deserve, we have not only employed highly trained and qualified teachers, but have recruited them in numbers that far exceed the required

standard.

Bilingual learning

Our school offers bilingual classes as part of its curriculum. We often incorporate Spanish into many of our morning or afternoon activities.

Besides the practical benefits of knowing a second language later in life, there are several advantages to receiving a multilingual education at an early age. Research shows that learning a second language boosts problem-solving,

critical-thinking, and listening skills. In addition to this, bilingual children generally score higher on standardized tests.

Our range of early childhood programs cater to students aged six weeks to five years old. We operate from 6:30am to 6:30pm.

MOTIVATED STAFF WITH
EXTENSIVE IN-HOUSE TRAINING**

HIGH-QUALITY FURNITURE AND TOYS

NUTRITIOUS AND HEALTHY FOOD

DISCOVERERS

Your child's journey begins at six weeks old. We develop their core cognitive, emotional and social skills through a combination of free and guided play, dance, art and music classes, and messy play.

Our physical development program helps improve their motor skills, while interactive learning enhances their confidence and social skills. We also constantly introduce new materials, to build their imagination.

Children discover the basic concepts of numbers, phonics, sounds and colors at a pace that best suits their unique abilities.

Days at Kido are broken into two distinct variations; Skills Days, which provide your child their first steps into the world of math and literacy; and Explorer Days, which are packed with fun activities based around a specific subject.

And you don't have to worry about your child's home routine being disrupted. Our

highly trained staff coordinate with each family when agreeing meal and nap times, to ensure a smooth transition from school to home and vice versa.

ADVENTURERS

Our Adventurers program starts as soon as your child can walk and usually finishes by the time they're two years old – though children can move to the next stage as soon as they're ready.

Adventurers build their confidence across all of the development areas in our curriculum. On their Skills Days, they cover math, literacy and science, while enjoying yoga, dance and music classes as part of their physical development. On Explorer Days, they tackle varied projects, designed to take their interests into account.

We also start toilet training at the Adventurers stage, consulting with each individual family to create a routine that makes every child feel safe and at home while at our center.

PRESCHOOL

We build a complete understanding of every child's ideal learning environment, and use this knowledge to create customized lesson plans for them. These experiences help them become more creative, and inspire a love of learning from an early age.

At four years old, our students should understand math and English at kindergarten (or higher) level, reaching grade school level by the time they are five. Along the way, we also introduce coding through apps, photography, video editing, writing stories and much more. Just like with our other programs, days are split into Skills and Explorer Days, which incorporate indoor and outdoor play.

Children typically begin preschool at two years old. They will usually progress through four distinct levels: Experiments, Pathfinders, Seekers and Pioneers, with each level containing its own fun activities.

Where you learn is just as important as what you learn

The Reggio Emilia approach is a huge influence on all our schools, and our Austin center is no exception.

We believe stunning learning environments create the right impetus for children to interact, play and learn. The result is a place where children, teachers and parents work together to build a community of inquiry.

The school has twelve large rooms, two indoor play areas measuring 700 and 1,400 sq. ft., a Community Library and a room designated for nursing mothers. In addition to this, there are separate outdoor play areas dedicated to each age group. Great care has been taken in resourcing all areas; every aspect of our school is tied to developmental activities that are part of our programs.

We have two babies' rooms, which are tailored specifically to kids under the age of 15 months old. These are dedicated to just 10 children each, and feature comfortable baby furniture, fun toys and resources for physical and cognitive development.

The toddlers have a much larger space, where they can run around and enjoy the multitude of activities available to them.

There are four preschool rooms,

which are dedicated to specific age groups. We also have art, K-STEM and media studios, where we run various programs. The rooms for the older children come equipped with iPads and computers for our K-STEM program.

Our indoor play area has equipment for activities such as cycling, running, and balancing. Children can also enjoy our dramatic play zone, as well as our library and writing center.

In addition to this, there is a separate area dedicated to after-school activities, which focus on science, technology, engineering, arts and math.

Our outdoor play zone is curated to encourage sports,

physical activity, and outdoor role-play, and even includes outdoor classrooms. In addition to these traditional learning areas, our outdoor play area also features its very own farm.

This contains an organic community vegetable garden, as well as fruit trees, sensory experiences and information stations. The space is not just designed to help your child's development, but also to build a sense of community and encourage children to take safe risks and explore.

All of our resources and furniture are sourced from the highest quality suppliers in Europe, the UK and locally within the USA.

A pleasant environment can make a huge difference to your child's development

Safari Kid* Gurugram, India Vaibhav Savvy Sharma

It's an amazing experience, my niece is enjoying the time she spends there. She is always dreaming about her school. I really love the experience.

Safari Kid Hong Kong Jules Neave

Our daughter loves her mornings at Safari Kid. She is learning quickly and clearly benefiting from her time there. The staff are very welcoming and extremely helpful with other matters such as applications to senior schools and putting on seminars for parents.

Safari Kid Dubai Mohammed Munjed

The preschool

impresses everyday with its amazing education methods, fantastic team and warm home environment provided to the children.

Since joining Safari Kid Dubai, my son has developed in so many ways. He is more confident, balanced and looks forward to going into preschool every day. I truly believe that this is a special place filled with special people who are amazing at what they do.

Kido Chiswick, London Kastriot J

I am in absolute awe with regards to how much my daughter has achieved in her time at Kido Chiswick. Not only has she settled

in exceptionally well, she has soared in her areas of learning. I am at ease knowing she is in the hands of great practitioners who keep me updated on her progress on a daily basis.

Kido Clerkenwell, London Skye A

This is a fantastic preschool with attentive staff and great facilities my child is very happy and thriving there. I haven't come across a preschool in London with outside space like it. The staff are always welcoming and adore the children.

Kido Windsor, UK Rob W

This is hands down the best preschool we have

All our schools are dedicated to creating a fantastic experience for children and parents alike

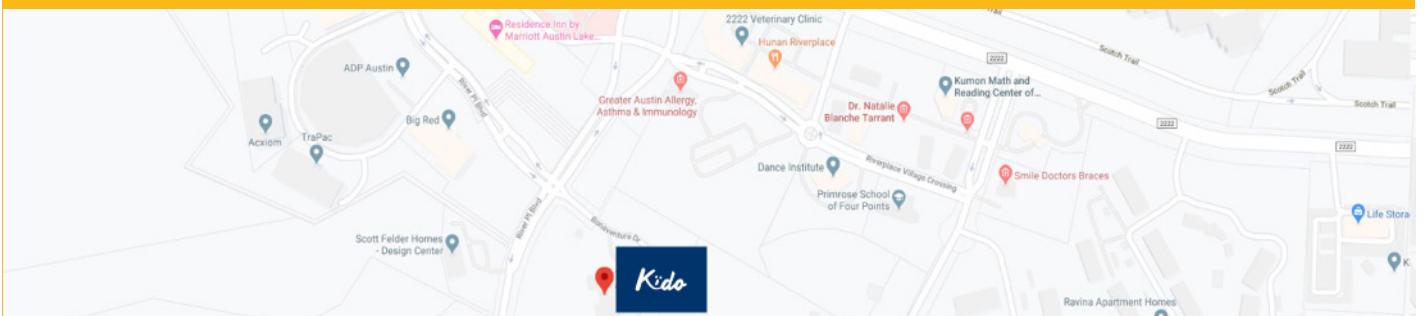

visited. Our 18-month-old son has settled so quickly and made fantastic bonds with all the staff, not just the teachers in his room. So quickly he changed from our baby to our independent little chatterbox toddler.

They go for walks every day and he

adores the indoor garden.

All the staff are so welcoming, I can't wait to see how much more they teach him. There's no full time working parent guilt when you are leaving your child at such a wonderful place with such friendly staff.

COME AND SEE US

If you want to pay us a visit, you'll find that it's easy to find our team at Kido River Place. Our school is located on Bonaventure Drive, and is only a few minutes away from River Place Elementary School.

Drivers will find that the school is a convenient distance from any location in River Place.

We also offer onsite parking for parents. This means that you will be able to drop off or pick up your children with little or no hassle.

Our address:

10625 Bonaventure Drive TX 78730
