Our range of early childhood programs cater to students aged 12 months to 6 years. We operate from 8:30am to 5:30pm.

Multilingual education at an early age.

Research shows that learning a second language boosts problem-solving, critical-thinking, and listening skills. In addition to this, bilingual children often have improved reading, writing, and math skills, and generally score higher on standardized tests.

Contrary to popular belief, young children are not confused by the introduction of multiple languages. Acquiring a second language early in life primes the brain to learn multiple other tongues, opening a world of opportunities for later on.

WELCOME TO KİDO REPULSE BAY

Take your children to a beautiful place where they can grow, play and learn

Our goal is to create inspiring and beautiful schools that your children will love

The striking architecture at Repulse Bay certainly makes an impression - there aren't many things more breathtaking than a Feng Shui hole. That's why we knew it would be an excellent location for one of our schools. The surrounding scenery is ideal for inspiring children to take their first steps into the world of learning.

Our stunning nursery can be found at the iconic Repulse Bay Arcade, and is built into a charming colonial building on the site of the old Repulse Bay Hotel. The area itself is a peaceful residential zone, which features a selection of shops and restaurants, and is just a five-minute walk from the Repulse Bay beach.

At our school, young children take their first steps into independence as they learn how to explore and socialize. We utilize smaller classroom sizes combined with high teacher-to-student ratios. This means we can give more attention to individual students, and craft lessons based around their interests. Our fun games and activities will spark a love of learning in your child from an early age.

Bilingual learning

Our school offers bilingual classes as part of its curriculum. We often incorporate Mandarin into many of our morning or afternoon activities to help children gain an understanding of the language.

Besides the practical benefits of knowing a second language later in life, there are several advantages to receiving a multilingual education at an early age.

Research shows that learning a second language boosts problem-solving, critical-thinking, and listening skills. In addition to this, bilingual children often have improved reading, writing, and math skills, and generally score higher on standardized tests.

Contrary to popular belief, young children are not confused by the introduction of multiple languages. Acquiring a second language early in life primes the brain to learn multiple other tongues, opening a world of opportunities for later on.

Our programs

We aim to provide a comprehensive experience for you and your children. In the Reggio Emilia approach to early childhood education, the environment is considered the "Third Teacher", and that's why we pay loving attention to creating visually appealing schools at all our global locations.

Our Repulse Bay nursery is for children under 3 years of age, with the over threes going to our Pok Fu Lam campus. Throughout the week, children can enjoy a variety of fun learning programs.

**DISCOVERERS**

Your child's journey begins at six weeks old. We develop their core cognitive, emotional and social skills through a combination of free and guided play, dance, art and music classes, and messy play.

Our physical development program helps improve their motor skills, while interactive learning, songs, poems and circle time enhance their confidence and social skills. We constantly introduce new materials, media and textures during creative play sessions, to build their imagination and inventiveness.

Children discover the basic concepts of numbers, phonics, shapes, sounds and colors at a pace that best suits their unique abilities.

Days at Kïdo are broken into two distinct variations; Skills Days, which provide your child their first steps into the world of math and literacy; and Explorer Days, which are packed with fun activities based around a specific subject.

And you don't have to worry about your child's home routine being disrupted. Our highly trained staff coordinate with each family when agreeing meal and nap times, to ensure a smooth transition from school to home and vice versa.

**ADVENTURERS**

Our Adventurers program starts as soon as your child can walk and usually finishes by the time they're two years old – though children can move to the next stage as soon as they're ready.

Adventurers build their confidence and skills across all of the development areas in our curriculum. On their Skills Days, they cover math, literacy, science and art, while enjoying yoga, dance and music classes as part of their physical development.

On Explorer Days, they tackle varied projects, specifically designed to take their interests into account.

Our specially curated learning experiences are ideal for your child's development – and plenty of fun too.

We also start toilet training at the Adventurers stage, consulting with each individual family to create a routine that makes every child feel safe and at home while at our center.

**KINDERGARTEN**

We build a complete understanding of every child's ideal learning environment, and use this knowledge to create customized lesson plans for them. These personalized experiences help them become more creative, and inspire a love of learning from an early age.

At four years old, our students should understand math and English at kindergarten (or higher) level, reaching grade school level by the time they are five. Along the way, we also introduce coding through apps, photography, video editing, writing stories and much more.

Just like with our other programs, days are split into Skills and Explorer Days, which incorporate indoor and outdoor play, dance, music and yoga.

Children typically begin preschool at two years old, though some may start earlier. They will usually progress through four distinct levels: Experiments, Pathfinders, Seekers and Pioneers, with each level containing its own fun activities.

Highly qualified and motivated staff with extensive in-house training

* Over 36M at our Pok Fu Lam Campus

---

Your child's journey begins at an early age.
Where you learn is just as important as what you learn

The Reggio Emilia approach is a huge influence on all our schools, and our Repulse Bay center is no exception.

We believe stunning learning environments create the right impetus for children to interact, play and learn. The result is a place where children, teachers and parents work together to build a community of inquiry.

The campus has two classrooms and a large play area, specially designed for small children. While in the school, children will have their first step into independence and autonomy, exploring, learning and socialising.

Great care has been taken in resourcing all areas; every aspect of our school is tied to developmental activities that are part of our programs.

We have a babies’ area that features comfortable furniture expressly created for our littlest learners, along with fun toys and resources for physical and cognitive development.

The toddlers have a much larger space, where they can run around and enjoy the multitude of activities available to them.

All of our resources and furniture are sourced from the highest quality suppliers.

“All of our resources and furniture are sourced from the highest quality suppliers.”

A pleasant environment can make a huge difference to your child's development.
Take a look at what parents from around the world are saying about their children's Kïdo experience

**Kïdo Gurugram, India**
Vaibhav Savvy Sharma
It's an amazing experience, my niece is enjoying the time she spends there. She is always dreaming about her school. I really love the experience.

**Kïdo Mumbai, India**
Dipti Shukla
Amazing preschool.

**Kïdo Hong Kong**
Jules Neave
Our daughter loves her mornings at Kïdo. She is learning quickly and clearly benefiting from her time there. The staff are very welcoming and extremely helpful with other matters such as applications to senior schools and putting on seminars for parents.

**Kïdo Dubai**
Mohammed Munjed
The preschool impresses everyday with its amazing education methods, fantastic team and warm home environment provided to the children.

Since joining Kïdo Dubai, my son has developed in so many ways. He is more confident, balanced and looks forward to going into preschool every day. I truly believe that this is a special place filled with special people who are amazing at what they do.

**Kïdo Chiswick, London**
Kastriot J
I am in absolute awe with regards to how much my daughter has achieved in her time at Kïdo Chiswick. Not only has she settled in exceptionally well, she has soared in her areas of learning. I am at ease knowing she is in the hands of great practitioners who keep me updated on her progress on a daily basis.

**Kïdo Clerkenwell, London**
Skye A
This is a fantastic preschool with attentive staff and great facilities my child is very happy and thriving there. I haven’t come across a preschool in London with outside space like it. The staff are always welcoming and adore the children.

**Kïdo Golders Green, London**
Yinghao H
Our daughter has developed tremendously academically and socially since she started at Kïdo Golders Green in Sept 2018. Several people in her life have commented on how much happier and more outgoing she has become since joining this preschool. She loves her teachers and her friends at school and talks about them with us often.

We get reports through the Family App on a weekly basis (with pictures) on how much she has learned. Whether it’s writing her name in the salt tray or learning Mandarin and French, she truly enjoys discovering new things at Kïdo. We couldn’t be more pleased.

**Kïdo Windsor, UK**
Rob W
This is hands down the best preschool we have visited. Our 18-month-old son has settled so quickly and made fantastic bonds with all the staff, not just the teachers in his room. So quickly he changed from our baby to our independent little chatterbox toddler.

They go for walks every day and he adores the indoor garden. All the staff are so welcoming. I can’t wait to see how much more they teach him. There’s no full time working parent guilt when you are leaving your child at such a wonderful place with such friendly staff.

Our reviews are taken from daynurseries.co.uk and Facebook areas of learning. I am at ease knowing she is in the hands of great practitioners who keep me updated on her progress on a daily basis.

**PARENT TESTIMONIALS**

*“It doesn’t matter who I talk to, the staff members are all friendly, communicate clearly about any upcoming changes, and listen to feedback. We couldn’t be happier.”*
Inge T

**COME AND SEE US**

Travelling to our nursery is nice and easy. The center is conveniently located at the Repulse Bay Arcade in Repulse Bay on the south side of Hong Kong.

Our school is accessible by car and can also be reached via public transport, thanks to its proximity to the new MTR South Island line. There is also a taxi rank nearby.

We do not offer parking spaces. However, we do have a drop off area for parents who are driving to the school.

Our address:
Shop G106A - 107A, The Repulse Bay, 109 Repulse Bay Road
Drop us an email: repulsebay@kido.school
